Description

This beautiful 5 bedroom villa is located within the private urbanization of Valtocado near the picturesque town of Mijas. Has excellent and pleasant panoramic views across the coast and the mountains surrounding the villa, the master bedroom has a stunning bathroom with double shower and a double jacuzzi with panoramic windows and LED lights on the roof for a complete relaxation after spending the day in the lovely pool and nice garden. Four of the rooms, including the main include large terraces. There is an additional bedroom in the basement, which is currently being used as an art studio and a room of great games and there is the possibility of converting the huge laundry room and patio into a separate apartment. There is also a spacious three-car garage with additional parking space for guests in the driveway and two storage rooms. Tucked away in the garden there is a bar area and a petanque court, while the main terrace has a barbecue and a lovely outdoor space for entertainment. This lovely villa would make an ideal family or holiday home and we highly recommend viewings early to avoid disappointment! [IW]
